### *Election Special - The Swamp Wins!*

As of the writing of this edition of our newsletter, it would appear that unless some sort of successful legal challenge occurs, Kamala Harris... I mean Joe Biden has been elected the next POTUS. To make matter worse, the Republican majority in the U.S. Senate hangs in the balance and may be lost as well. We won't know the results for several weeks as the great state of Alaska won't even finish counting their votes until November 18th, and both Senate races in Georgia are headed for run-off elections.

The good news is Republicans have picked up 5 seats in the House, far from flipping the House, but better than a kick in the head. And for now, there is purportedly a 5-4 majority of conservative judges on the

### *Top 5 Post Election Preps*

As promised, Im4Rights is focusing more on preparations these days, and with the election over, here are a few things I think you should do immediately. If you already have some or all of these bases covered, congratulations.

1. Self-defense - With the new administration guns and ammo will be in short supply. If you think things are scarce now, it's not going to get any better. Add in their Ban Guns & Defund Police positions to the mix, and you may need guns and ammo now more than ever to protect yourself and your loved ones. Buy all you can afford!
2. Daily-living supplies - Stock up on all the supplies that went missing during the onset of the first set of lockdowns. It is not beyond the pale to imagine, Biden and Fauci instituting lockdowns again. If so, this time could be much worse, just check out what is going on in Austrailia.

Promoting and protecting the Bill of Rights,  
especially the Second Amendment

## Swamp Wins! (continued)

Supreme Court. If the Republicans can manage to hang on to the Senate, we will be in for another 2-4 years of getting nothing done, which is a damn site better than what could occur in the first two years of a Biden/Harris administration with Democrat majorities in the House and Senate

The Democratic-Socialist party will begin the systematic ruination of the United States. These actions will be high on their priority list, and will occur in the first two years in order to guarantee their ongoing enterprise before the citizens could flip the House & Senate in 2022 to stop the process.

1. Amnesty for all illegal aliens currently in the country
2. Open borders, with little to no immigration control
3. Stack the Supreme Court with liberal judges
4. Begin implementing the "Green New Deal"

If these 4 steps can be accomplished the U.S. will become a one-party system and go the way of Venezuela. If you have the wherewithal, I urge you to send donations to the Republican Senate campaigns in Georgia. If the Senate is not held, The Bill of Rights will have it's legs cut out from underneath it by the Biden/Harris administration. First, they will go for the 2nd Amendment, and once they have their one-party machine in place, the rest will evaporate.

## Post Election Preps (continued)

3. Long-term food supplies - Goal 1 should be to have enough non-perishable food stored to feed each member of your family for 3 months. Personally, I figure on 1800 calories per day per person. Once you've got that covered, keep accumulating as you are able. A year's supply for each individual is great Long-term food supplies are in high-demand now, so prices are high and inventory is low. Get started now!
4. Water - Residents in hurricane prone areas, are used to stocking up on bottled water, but that can be expensive and hard to lug around. I recommend water filtration systems... a portable version such as a Life Straw and a larger version like a Berkey. See the article at right for my homemade version.
5. Bug-out Bag(s) - In the event you need to leave your residence for an undetermined length of time, you'll want certain equipment, food and clothing ready to go. More on this topic next month.

### DIY Berkey Style Filter

Two 5-gallon buckets with lids, a filter, a spigot, and a drill are all you need to create your own [DIY Berkey Style Filter](#) for a fraction of the cost. Is it nice and shiny, and a work of art... No, but it is functional!
