Watch the Other Hand

The left is busy distracting the nation from their efforts to institute one-party rule by concentrating on the endless prosecution of Trump, which their media lapdogs are more than willing to cover. Meanwhile, they have fortified their position with 10 foot fences, razor-wire, and 7,000 National Guard troops. Behind this fortification, they are hard at work, with their media and big tech cohorts, stripping rights from citizens, giving rights to non-citizens, canceling voices of dissent, and working to disarm the populace.

Half of the citizenry, those who rely on main stream media and the echo chambers of big tech social media for their understanding of current events, are unaware of the cabal's master plan to establish one-

party rule. Time Magazine [launched a preemptive strike](#) to claim the high ground in the theft of the election debate – admitting that a cabal worked to steal the election, but claiming it was necessary to save democracy. I call BS on that! Since when is it okay to break the law in order to subvert the will of the people? Now, the cabal is busy preparing to codify into law the ability to perpetuate one-party rule. Make no mistake; one-party rule is just a euphemism for socialism/communism, and we must open the eyes of those who don't understand what is transpiring. Watch the other hand!

What Can We Do?

Not only must we open the eyes of those who don't understand the dangerous trajectory our country has embarked upon, we must actively seek to stop and then reverse what has been happening. How can we do this? First and foremost, we must not support businesses that are working at odds to the Constitution and the Bill of Rights. Vote with your wallet. Do not support businesses that support suppression of the natural rights affirmed in our founding documents. This may take some individual sacrifices, but more and more options are becoming available as freedom-minded entrepreneurs enter the market realizing there is huge pent-up demand. Voting with your wallet will help to establish an alternate economy where businesses who support and defend the principles espoused by Constitution/Bill of Rights.

Second, we must take back our country from the ground up. That is we must get involved in politics at the city/town, county, and state levels. We will have the most effect working at that level, and once the local levels are established, the national levels will follow. Take a few friends to attend and speak at city/town council meetings, county board meetings, school board meetings, water resources meetings, or any areas of interest you are passionate about. Did you know that nationwide only about half of the Republican Party Precinct Committeeman/Committeewoman seats are occupied? This is a great way to get plugged in and have a voice in restoring the Party to one that values the Constitution and Bill of Rights. There are likely seats available in your precinct. Contact your county Republican Party for details.

Finally, refuse to lose! We are not defeated until we give up, or we die. As President Trump once said, "Defeat is a state of mind. You are defeated only when you accept defeat, and assume the hopeless mindset of a defeated person." It is easy to feel discouraged and complain about what is happening to our country, but it is imperative we not fall into that trap. We can complain, but we must take small steps each day to regain the confidence we can make a difference. We must do so for ourselves, our children, and all who follow them. President Ronald Regan said, "America is a shining city upon a hill whose beacon light guides freedom-loving people everywhere." While the beacon may not be as bright as it should be, with effort, we have it within us to restore it to its full wattage rather than watch it go dark.
